Proceeds to benefit
Home Share of Central Vermont
and Maria Luise Vaughan.

Home Share of Central Vermont combines traditional New England frugality with a focus on our environment, facilitating live-in matches that range from lending a hand so VT Seniors can stay home to Baby-Boomers deciding to combine resources to live greener lives. Our proven process starts with getting to know each person offering space in their homes, and each person looking to move in and offer help. For safety and comfort, we conduct thorough background checks, facilitate introductions, arrange trial matches, write personalized home sharing agreements, and follow up as needed throughout the match. Our staff and volunteers are friendly and professional, providing caring, efficient and individualized service throughout Washington, Orange and Lamoille counties in Central VT.

Miss Maria Luise Vaughan is a spirited carefree 2 year old fighting brain cancer. She is currently on her 3rd round of Chemo and has 2 more to go, along with a months worth of Stem Cell Transplants in NYC.
